Performance Levels					
Row	Content Area/ Proficiency	Low/ 2	Medium / 4	High / 6	Points (Max)
5	Engage Audience	The presentation's design does little to effectively convey the information. There is little evidence of purposeful selection or emphasis of information to suit audience, situation, medium, or purpose (e.g. too much of the essay is included on slides, too much for given time limit).	The presentation's design aligns with the information and selects and emphasizes key information.	The presentation's design aligns well with and effectively contextualizes the information. The presentation, including its selection and emphasis of information, is designed for audience, situation, medium, and/or purpose.	6
		Low/ 2	Medium / 4	High / 6	Points (Max)
6	Engage Audience	The selection and execution of delivery or performance techniques (e.g., eye contact, vocal variety, movement, energy) severely limit the presentation's impact.	The selection of delivery or performance techniques (e.g., eye contact, vocal variety, movement, energy) OR execution of those techniques, supports communication of the argument.	A careful selection of delivery or performance techniques (e.g., eye contact, vocal variety, movement, energy), coupled with a dynamic execution of those techniques, strongly supports the communication of the argument.	6
